LOCATION: Remote (UTC+1)

PROFILE

Results-driven individual with 4+ years of experience across software development, IT operations, security research, and institutional technology leadership. Proven ability to coordinate teams, manage stakeholders, and deliver outcomes remotely (UTC+1) without supervision. Highly organized, people-oriented, and deeply fluent in digital-first, async workflows. Eager to apply a structured, communicative approach to supporting a high-performing recruitment function.

WORK EXPERIENCE

RUHAMAH GROUP OF SCHOOLS, DIRECTOR OF TECHNOLOGY
2025 – PRESENT

- Lead all technology strategies and digital infrastructure for a private secondary institution, overseeing systems selection, implementation, and staff adoption.
- Coordinate directly with school leadership and administrative teams to align technology initiatives with institutional goals and operational timelines.
- Manage vendor relationships, software procurement, and internal IT support workflows; demonstrating end-to-end project ownership in an institutional setting.

NNPC GAS INFRASTRUCTURE COMPANY, IT INTERN
2024 – 2025

- Supported internal digital operations and contributed to tooling used by infrastructure and administrative teams in an enterprise oil & gas environment.

EDUCATION

UNIVERSITY OF PORT HARCOURT
Expected 2026

Bachelor of Science in Computer Science

Active member, National Association of Computing Students (NACOS) - served as Director of Software, UNIPORT Chapter

SELF DIRECTED PROFESSIONAL DEVELOPMENT
2021 – PRESENT

Full-Stack Engineering ·
Cybersecurity · AI Systems

4+ years of continuous, project-based technical learning via global-standard courses, documentation, and open-source work.

SKILLS

Problem Solving
Critical Thinking
Remote team coordination
Client communication
Async-first workflows
Stakeholder management
Candidate Sourcing
Structured writing
Sprint & task planning

- Gained hands-on exposure to enterprise-scale IT systems management, internal workflows, and operational processes at a major national energy company.

NATIONAL ASSOCIATION OF COMPUTING STUDENTS, DIRECTOR OF SOFTWARE (UNIVERSITY OF PORT HARCOURT CHAPTER)
2024 – 2025

- Led all software initiatives for the UNIPORT chapter, coordinating technical projects and driving adoption of modern development practices among student members.
- Organized workshops and peer-learning sessions covering web development, version control, AI/ML, and software engineering fundamentals.

INDEPENDENT CONTRACTOR, FULL-STACK DEVELOPER
2021 – Present | Remote (UTC+1)

- Designed and shipped production-grade web applications for clients across Nigeria, owning the full lifecycle from architecture to Vercel deployment.
- Built an Apple-benchmark phone retail e-commerce platform with SvelteKit, TypeScript, and MongoDB — handling product catalog, cart, and admin operations.
- Structured and negotiated milestone-based contracts (50% upfront), ensuring clear scope boundaries and 100% on-time delivery.
- Managed all client communication remotely via WhatsApp, email, and async tools — no in-person dependency across any engagement.

FREELANCE, WEB APPLICATION PENETRATION TESTER
2024 – Present | Remote (UTC+1)

- Conducted authorized black-box and grey-box assessments on client web applications, identifying vulnerabilities across authentication, session management, and API surfaces.
- Delivered structured reports with CVSS-ranked findings, proof-of-concept reproduction steps, and actionable remediation guidance.
